### Vaccine Update

This week, Dutchess County Department of Behavioral & Community Health (DBCH) is slated to receive 2,900 doses of Moderna vaccine from New York State. We will be vaccinating those age 50 and older, individuals with health conditions, and essential workers at our JCPenney and Dover Point of Dispensing (POD) sites **by appointment only**.

We will also host a pop-up vaccination site in Pine Plains on Wednesday and Poughkeepsie on Friday. These pop-up sites are also **by appointment only**. Additional pop-up sites are planned for Hyde Park, Poughkeepsie, and Millerton in the coming weeks.

We also continue to partner with area primary care providers to vaccinate homebound and medically frail senior citizens and those who are otherwise eligible.

Dutchess County representatives are contacting eligible individuals for all of the above event appointments.

## Excelsior Pass

A new mobile app will assist businesses like event venues with proof of negative test or vaccination status.

- Acceptable pass will be generated if you have not tested positive for COVID-19 in the last 10 days, and
  - You have been fully vaccinated in NYS and it has been 14 days since final shot
  - You had a PCR test administered in NYS in the last 3 days with a negative, or
  - You had an antigen test administered in the State of New York in the last 6 hours and the result was negative
